BUILDING WORKS

It is a most exciting time in the life of Holy Family School. A major refurbishment to the school site began in 2008 with the building works concluding in April 2011. This building program further enables us to provide our children, staff and community members with the optimum standards in education, care and school facilities.

Building Work Stages

Stage 1
Stage 1 of the building program involved the refurbishment of the administration centre of the school. The Administration area refurbishment involved the building of a new reception area, principal's office, secretary's office, staff offices, staff/community meeting room, staff room and staff resource centre. Stage 1 was completed in December 2008.

Stage 2
Stage 2 of the building program commenced in February 2009. Stage 2 involved the refurbishment of the school Library/Resource Centre. The school oval was resurfaced as a synthetic oval providing a 200 metre circular running track, a 100 metre track, along with football, soccer and cricket facilities. The children delight in this superb all weather play area. Stage 2 works were completed in July 2009.

Stage 3
Stage 3 of the building program commenced in June 2009. Stage 3 involved the refurbishment of 9 classrooms, the installation of Interactive Whiteboards in all Learning Spaces and the refurbishment of the Hall/Basketball Centre. Stage 3 works were completed in April 2011.

Future enrolments will be provided with an outstanding curriculum base, a focus on the wellbeing of each child all within superb grounds, buildings and facilities!

You are invited!

We invite all families to take a tour of the school during our Open Days
Or
‘Anytime’ by appointment (9807 3300) any other day of the school year. We will inform you of our curriculum delivery, wellbeing programs, building development and the many other programs and practices that will meet the needs of your child in their primary schooling.
